

## IPIMM™ Transportation Management System

iPIMM™ Mobility Solutions are specifically designed and developed for “Drivers”. iPIMM™ TMS provides the driver with an intuitive user interface that is simple and straightforward. No more clunky proprietary EOBR devices with limited capabilities - iPIMM™ TMS operates on the Apple iOS platform supporting advanced technologies like FaceTime, Bluetooth, sign-on-glass, 2-way messaging, built-in camera, and much more.

iPIMM™ TMS, our flagship offering, delivers a variety of solutions geared at enhancing the driver experience. The Apple iPad mini is the perfect mobile platform for drivers – size, shape, design, durability, reliability and functionality.

iPIMM™ TMS features include:

- Vehicle Inspections (DVIR)
- Route-based Navigation (EOBR)
- Proof of Delivery (POD)
- Alert Notifications (2-way)
- DOT Reporting (HOS)
- Emergency (SOS)
