

“Drivers Wanted”

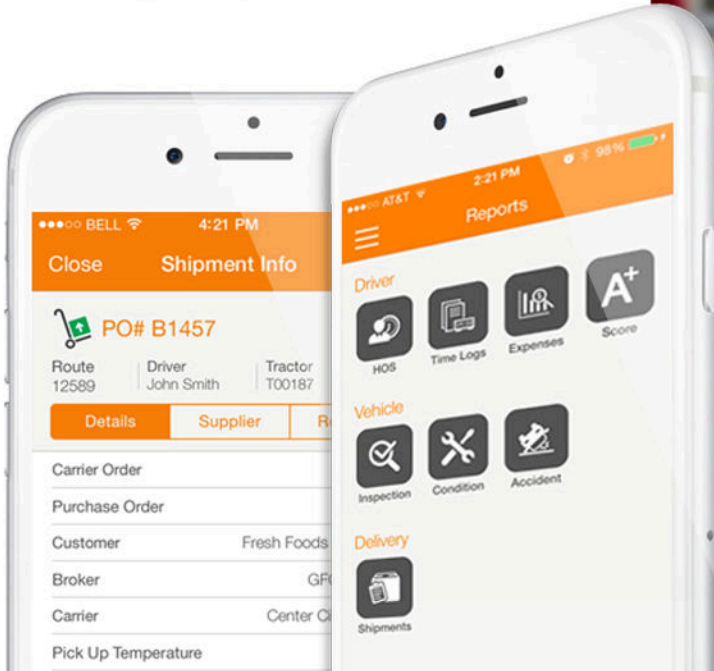

iPIMM™ Trucker

iPIMM™ Mobility Solutions are specifically designed and developed for Owner Operators and Independent Contract Drivers - “Real Truckers”.

iPIMM™ Trucker provides the driver with an intuitive user interface that is simple, straightforward and supports both Apple iOS and Android platforms, so the Driver can just use a standard iPhone/iPad or Android smartphone.

Truckers rejoice, iPIMM™ Trucker automates all of the administrative functions that drivers requires to run their business – HOS, DOT Reporting, Line-haul Management, Expense Management, etc.

iPIMM™ Trucker features include:

- Vehicle Inspections (DVIR)
- Trip-based Navigation (EOBR)
- Proof of Delivery (POD)
- Alert Notifications (2-way)
- DOT Reporting (HOS)
- Emergency (SOS)
